PROFILE

Motivated Python Developer with a Master's degree in Statistics, passionate about building data-driven web solutions and analytics platforms. Proficient in Python, Django, Flask, SQL, and data wrangling with Pandas. Experienced in backend web development, web scraping, and dashboard creation using Power BI and Tableau. Eager to contribute to scalable, intelligent systems in a collaborative environment.

TECHNICAL SKILLS

- **Languages:** Python, SQL,
- **Frameworks**: Django, Flask, Django REST Framework
- **Databases**: MySQL, SQLite, Relational Databases
- **Tools:** Power BI, Tableau, Git, Excel
- **Libraries:** Pandas, NumPy, Matplotlib
- **Core Areas**: Web Scraping, API Integration, Data Cleaning, Data Analysis, Agile, SDLC

CERTIFICATIONS

- Full Stack Python Developer, ITPreneur
- Full Stack Data Science, iNeuron
- SQL and Relational Databases Certification, IBM Developer Skills Network

---

EDUCATION

- **Master of Science (M.S.) in Statistics** | Modern Collage, Pune University, Pune | April 2024 | CGPA: 6.20
- **Bachelor of Science (B.S.) in Statistics** | Garware Collage, Pune University, Pune | April 2022 | CGPA: 8.48

PROJECTS

Review Scraper (Flask) | LINK
- Developed a Flask-based web application to scrape product reviews from ecommerce platform (Flipkart.com) using BeautifulSoup library and requests.
- Designed a system retrieve scraped data, stored in an SQLite database, with efficient querying
- Skills: Python, Flask, HTML/CSS, SQL, Web Scraping

Social Media Analytics Dashboard (Tableau Dashboard & Reporting) | LINK
- Built an interactive Tableau dashboard to analyse campaign performance across social media.
- Enabled platform and metric-based filtering for targeted marketing insights using a synthetic dataset.

Hotel Booking System (Django) | LINK
- Created a full-stack Django application for hotel room booking with user authentication and admin portal.
- Implemented room availability checking and reservation logic, integrating SQLite for database.
- Developed features including a feedback system, blog posting, and room booking system, using Django forms and models.

CORE COMPETENCIES

Python & SQL Programming | Flask/Django Web App Development | Data Wrangling & Cleaning
API/Backend Logic Implementation | Dashboarding with Power BI/Tableau | Problem-Solving & Collaboration
